MY PROFILE

I am a versatile software developer with experience in both frontend and backend, specializing in the development of innovative web projects. My passion for technology drives my continuous learning and the undertaking of challenging personal projects. As a collaborative and self-taught professional, I am known for my responsibility and my ability to quickly adapt to new technologies. My goal is to create web solutions that are not only technically advanced but also aesthetically appealing. Moreover, I value the chance to share my knowledge and offer my support to colleagues in any circumstance.

EDUCATION

Web Application Designer

Instituto Nacional de Aprendizaje
Completed in June 2021

Software Developer

Instituto Nacional de Aprendizaje
Not completed as of August

PROJECT

Project Name: Personal Portfolio

Technologies Used: React JS, Third-party API, Ant Design, Netlify, GitHub, Styled Components.

Project Description: Developed a dynamic personal portfolio website to showcase my software development projects and professional skills. This site was built using React JS to ensure a responsive and interactive user experience. I integrated third-party APIs to fetch real-time data and deployed visual enhancements using Ant Design. The application is hosted on Netlify, demonstrating continuous deployment from a GitHub repository, and it features styled components for a customized and maintainable CSS design.

SOFT SKILLS:

- **Team Collaboration:** Collaborative work with developers, designers, and project managers to deliver high-quality software.
- **Problem Solving:** Creative and efficient problem resolution under pressure.
- **Adaptability:** Quick adaptation to new programming environments and project changes.
- **Continuous Learning:** Commitment to continuous learning and updating of technical skills.
